Computer News You Can Use

Making Web Sites Accessible

Something we often don't think about when developing web sites is making them accessible to people with disabilities. Imagine trying to navigate a web site without the use of a mouse! Here are some web articles about creating truly user friendly web sites:

- <http://www.techsoup.org/articlepage.cfm?articleid=381&topicid=1&btcfid=articlepage381>
- <http://www.useit.com/alertbox/20011111.html>
- <http://www.w3.org/WAI/>

Back issues of CNYCU are available at www.centerforcongregations.org/ComputerMinistry.asp

You are receiving this email because you are either a past attendee of Computers & Ministry or we have worked with your congregation on technology issues or have indicated an interest in receiving this e-newsletter.
