Computer News You Can Use

What Your Computer Consultant Doesn't Want You to Know

This is actually the title of a wonderful book that I recommend for every congregation's tech library. Written by Joshua Feinberg and available from Small Biz Tech Talk Press (www.smallbiztechtalk.com) it gives some great practical advice on hardware and software purchasing, finding and using consultants, and protecting your data. What's even better, Feinberg reiterates (and agrees with) everything we have been saying for the last 4 years!
